

Dear First Grade Families,

In Unit 9, students will work on the following first grade Common Core standard in the Geometry (G) domain.

1.G.3	Partition circles and rectangles into two and four equal shares, describe the shares using the words <i>halves</i> , <i>fourths</i> , and <i>quarters</i> , and use the phrases <i>half of</i> , <i>fourth of</i> , and <i>quarter of</i> . Describe the whole as two of, or four of the shares. Understand for these examples that decomposing into more equal shares creates smaller shares.
-------	--

Unit 9 Concepts:

- Partition shapes into equal shares
- Describe the whole as two or four of the shares
- Understand that decomposing into equal shares creates smaller shares

Unit 9 Vocabulary:

- Partition
- Equal
- Decomposing Shapes
- Whole
- Half
- Fourth
- Quarter

Ask questions like these to help your child become a productive mathematical thinker:

- Cut this circle in half. How many equal shares are there?
- If you cut the half-circle in half, what would each of the pieces be called?
- Is a quarter circle a smaller or larger share than a half circle?
- How many ways can you partition a rectangle into four equal shares?
- How many fourths in a whole?
- How many halves in a whole?

Whole

Half

Fourth/Quarter
