Dear Second Grade Families,
In Unit 12, students will work on the following second grade Common Core standard in the Measurement and Data (MD) domain.

| 2.MD.7 | Tell and write time from analog and digital clocks to the nearest five minutes, <br> using a.m. and p.m. Know relationships of time (e.g., minutes in an hour, days <br> in a month, weeks in a year). |
| :---: | :--- |

## Unit 12 Concepts:

- Tell time to 5 minutes
- Know a.m. and p.m.
- Use a calendar
- Time relationships

## Unit 12 Vocabulary

- Digital
- Analog
- Hour hand
- Quarter after/quarter of
- a.m.
- p.m.
- Second, minute, hour, day
- Day, week, month, year

## Need a review?

Have your student login to Swun Math to access lesson support videos.

Ask questions like these to help your child become a productive mathematical thinker:

- What time is it? [Use an analog clock.] How do you know? What strategy did you use?
- You can play video games until 4:25 p.m.
- Shower time is quarter after 6:00 p.m. What time is that?
- If it's $8: 55$ a.m., where will the minute hand be? Where will the hour hand be?
- Dinner will be ready in an hour. How many minutes is that?
- What's something we do on the weekends in the a.m. that we don't usually do on school days?
- My friend's birthday is on the 17 th of this month. What day of the week is that? Her party is on Saturday. What's the date?
- Grandma will be here in a month. How many weeks do we have to wait?
- What is today's date? How many weeks until it's the same date next year?

We encourage you to talk with your child daily about what was learned in math class.
Thank you for your support!
