Kindergarten – Unit 7
## Number Pairs to 10

Parent Letter

Dear Kindergarten Families,

In Unit 7, students will build on the on the following Kindergarten Common Core standards in the Operations and Algebraic Thinking (OA) domain.

| K.OA.1	Represent addition and subtraction with objects, fingers, mental images, drawing, sounds, acting out situation, verbal explanations, expressions, or equations.
K.OA.2	Solve addition and subtraction word problems, and add and subtraction within 10, e.g., by using objects or drawing to represent the problem.
K.OA.3	Decompose numbers less than or equal to 10 into pairs in more than one way, e.g., by using objects or drawings, and record each decomposition by a drawing or equation (e.g., 5 = 2 + 3 and 5 = 4 + 1).
K.OA.4	For any number from 1 to 9, find the number that makes 10 when added to the given number, e.g., by using objects or drawings, and record the answer with a drawing or equation.

Unit 7 Concepts:
- Find multiple ways to build a sum
- Make 10

Unit 7 Vocabulary:
- number pair
- decompose
- equation
- addends
- number bond
- ten frame

Ten Frame

$$10 = 8 + 2$$

Number Bond

whole

7

5
part

2
part

$$\text{whole} = \text{part} + \text{part}$$

Ask questions like these to help your child become a productive mathematical thinker:

- There are 8 grapes on your plate. How many more do you need to have ten?

- There are 7 markers in the basket. Some are blue and some are black. How many could be blue? How many could be black? Is there another way to make 7?

- Draw a picture to show your thinking.

Need a review?
Have your student login to Swun Math to access lesson support videos.

We encourage you to talk with your child daily about what was learned in math class.
Thank you for your support!
